

CSBD Autism Services Fee for Service Virtual Service Options

In efforts to continue to provide services during this time of social distancing, CSBD is offering virtual service options for new and existing clients. Our services include individual and group service options.

Individual Consultations

Caregivers will meet virtually with a member of the Autism Services team to discuss goals related to their child's individual needs. Consultations may focus on goals such as, creating a visual schedule for academic work, teaching a life skill, or accessing appropriate community resources.

Given the brief nature of this service, consultations will focus on a single goals area, and cannot address significant challenging behaviour. **Cost: \$65.00 per session**

Group Based Services for Parents

Participants will be coached through implementation of strategies designed to address a specific goal area. Sessions will be 1.5 - 2 hours in length. Topics of group based services could include, but are not limited to, social skills, emotional regulation, building academic independence/routines, communication and daily living skills. **Cost: \$65.00 per session**

Group Based Services for Youth

Groups will focus on a specific goal areas based on group needs. Participants will be provided with homework to complete in between sessions. Goals will be taught through the use of interactive learning tasks, games and activities. Topics of group sessions could include, but are not limited to, social skills, emotional regulation, building academic independence/routines, communication and daily living skills. **Cost: \$65 per session**
