Counselling Services of Belleville & District

Transition Supports

Parents and Caregivers can meet with a member of our team to brainstorm, consult and problem solve at a time of transition in their child's life such as: transitioning to school or a new school. Our Family Support Co-ordinators are also available to support you at planning and transition meetings.

“If only we could remember what the world looked like through the eyes of a child”

Foundational Family Services

You can access Foundational Family Services, free of charge at any time. All you need is your OAP number.

You can set up a meeting with a Family Support Co-ordinator by calling CSBD at 613-966-7413. If you have already been in touch with someone at Autism Services, you can reach out to them and they will assist in getting you connected.

When you register for any of the online workshops, you will be asked for your OAP number so keep it handy 😊

Brief Targeted Consultations

Parents and Caregivers can schedule consults with a member of our team to discuss strategies and tools to address a specific goal area, which will give them concrete tools and strategies they can implement when they get home.

Please Note: we will not be able to address serious or potentially serious challenging behaviour within a consultation, as a more thorough assessment and intervention would be required.
