

CSBD Autism Services Virtual Parent Education

Parent Training Modules

- **REINFORCEMENT AND PAIRING**

Understanding reinforcement, developing a pairing strategy.

- **BEHAVIOUR AND DATA COLLECTION**

Learning to identify the function of behaviours and the importance of taking data.

- **SKILLS AND INCREASING BEHAVIOUR**

Identifying goals and developing strategies to teach new skills.

- **BRINGING IT ALL TOGETHER**

Create a plan that can be implemented using the strategies learned throughout all modules.

LET'S GET YOU REGISTERED!
Here is what you need to know:

Parent Education virtual sessions will be running weekly over four weeks.

You will be introduced to the fundamentals of ABA (Applied Behaviour Analysis), learn strategies to assist your child in learning new skills, learn how to effectively respond to challenging behaviours and enhance communication skills.

To preview the workshop:
